

# Partnership to Serve Oregon Multifamily Building Owners

New Ecology, Inc., Elevate Energy, and Network for Oregon Affordable Housing are partnering to help you reduce operating costs through energy and water efficiency measures. We're excited about this unique partnership and ready to support your property at every stage through customized building services. Please get in touch with us today for a free consultation.

## Predevelopment: The Earlier the Better

For a limited time, **we are pleased to offer predevelopment services at no cost** to you. We help you at the earliest stages of project planning to develop the best strategies to meet your goals, timeline, and budget. This reduces the need for later changes to maximize your long-term benefits. Services include:

- Rehab energy and water assessment
- Renewables or certification feasibility
- Design charrette facilitation

## Seamlessly Navigate Green Development

We know that the building design and development process is complex and fast-moving. When you factor in green measures, it gets even more complicated. Our building services will help you manage and implement the right energy and water efficiency systems, from design to construction.

- Design specifications review
- Energy modeling
- Green certification project management
- Commissioning

## Improve Building Performance for Comfort and Efficiency

Operating and maintaining properties for water and energy efficiency is critical to the long-term fitness of your property. It also leads to happier, more comfortable occupants and lower turnover.

- Benchmarking: portfolio services, ordinance compliance, and ENERGY STAR® certification
- Energy and water assessments
- Quality inspections
- Financing and utility rebate support

Collectively, our team has upgraded nearly 200,000 units, helping owners like you reduce operating costs and energy bills and create healthier, more comfortable, and more resilient homes for your tenants. Now that's smarter energy use for all.

## Learn More

We'd like to hear more about your building plans and prepare a custom proposal for you. Please say hello today.
